

Change resistance

Resistance on team level
Mandate does not work
Resistance in management

Lack of investment in transformation

Resistance on team level
Mandate does not work
Resistance in management

Agile is found to be hard

Nnn
Mmm

Large organization issues

Role of management in agile
Using agile and waterfall side by side
Dispersed agile models

Coordinating work between many teams

Aaaa
Bbbb

Integrating other functions than development

Marketing, user experience design, etc.
Iterations focus on short scope
Marketing activities require lead time

Integrating requirements management and quality assurance
